

## Annual Report 2020-21 Indian Institute of Information Technology Kalyani

### A. About IIC Institute

#### Vision / Mission of IIC established at the Institute

##### **Vision**

Establish an ecosystem to pre-incubate and nurture the innovative ideas of students and faculty members

##### **Mission**

Encourage better cognitive ability among students and develop a start-up/entrepreneurship supporting mechanism in the Institute

#### Journey of IIC established at the Institute

The IIC of IIIT Kalyani was established in December 2018. During that time it was supported by the IIC of the mentor institute IIT Kharagpur. The students and faculty members of IIC visited the mentor institute incubation centre for exposure on various activities. Since that time, the IIC of IIIT Kalyani is working towards developing the awareness about innovation, start-up and entrepreneurship among students and faculty members. The Institute has already signed MOU with two start-up industries and students are joining these industries during their internship programs. Several lecture series on IPR, Entrepreneurship by start-up CEOs and academicians were also arranged by IIC to encourage the students. IIC of IIIT Kalyani conducted the internal hackathon for Smart India Hackathon on January 19, 2020. The students came up with solutions to problem statements in varied domains: blockchain, app development, deep learning, raspberry pi, arduino, virtual reality and so on. IIC also organized several MIC driven in self-driven activities in last two years.

In recent years, due to 2020-21 Covid crisis, all academic activities are conducted online. During this time the IIC conducted events that are completely online as well as aimed towards the general theme of re-branding Indian toys. Since the focus of the official hackathon is both on digital and physical rebranding, IIC took advantage of the online systems and organize an online event focused on building digital games. Annual Game Jam event is organized in Feb-Apr 2021.
